

5.9.6 Water Rights Requirements

Satisfactory evidence of an entitlement to a firm and uninterruptible right to the use of culinary water, from a recognized water supply agency for each lot or unit in the development, shall be submitted with each application as follows:

- A. Written approval by the Price River Water Improvement District or other recognized water supply entity, indicating
 - 1. That the Developer has satisfied the agency's water rights conveyance requirements, and
 - 2. That the agency is willing and able to provide a perpetual and uninterruptible supply of culinary and fire water to the project, as determined by the County.
- B. Written approval from an existing recognized culinary water delivery entity (water company, special district, etc.), granting permission of the developer to receive water service through company-owned facilities and /or copies of documents establishing a new water delivery agency.
